Board Raises License Fees; Vehicle Tax

Busy Session Tuesday Night Sees Changes In All Licenses

In a session called "interesting, but not hectic" by Village President George B. Bartlett, the Antioch village board carried out what is believed to be the largest amount of work ever accomplished in one evening last Tuesday.

The meeting was also unusual in the fact that Bartlett was called upon to break a three-to-three deadlock for the second time during his twenty years as president of the village.

The deadlock occurred when three members of the board voted against raising the village vehicle tax from three to five dollars and three eyes opposed them. Rosenfeldt, Powles and Scott were the dissenters and opposed by Wagner, Rentner and Stearns who were in favor of the raise. Bartlett was then called upon to vote and his affirmative vote carried the measure to provide for a five dollar fee for all trucks and automobiles owned or operated by residents of the village.

The new rate will be in effect for the coming fiscal year beginning May 1.

Other license fees were raised, with liquor licenses getting a \$100 boost all along the line. Class A licenses, which are limited to five, will cost \$450 instead of the \$350 charged heretofore. A \$350 charge will be made for class B licenses, which provides that packaged goods may be sold over the counter in sealed containers and that no malt beverages or alcoholic liquors may be consumed on the premises. In past years class B licenses allowed consumption of malt beverages on the premises. Class C licenses will cost \$300 henceforth, instead of the \$200 charged last year. The class C license provides for the sale of beer and malt beverages only. A new club license, designed to allow organizations to operate a bar for the members of the organization and their guests will be issued for \$25.

Class A licenses are limited to five within the village and the location of these taverns will be designated on the zoning ordinance soon to be in effect. The area in which the licenses will be issued for embraces Main street between Lake and Orchard streets. Class B licenses for the sale of packaged goods has been limited to ten. There is no limit on class C and club licenses.

Hike Motion Picture Licenses
Movie theatres received the largest hike in license fees with the new license fee set at \$200 instead of the customary \$85.

Daylight Saving Time April 28

Daylight saving time will go into effect on Sunday, April 28, at 2 a. m. to conform with most cities throughout the metropolitan area. The tentative date for resumption of standard time is the last Sunday in September, but it is believed that Antioch will "go along" with other communities and it is possible that daylight time may be in effect longer if other places retain it.

Naber Subdivision Approved

B. F. Naber presented the original plat of his proposed subdivision to be known as B. F. Naber's No. 3 subdivision and received the board's approval of the plans for extension of the village water mains and sewerage system. Facilities to be put in include eight inch sewers, six inch water mains and four inch hydrants. Village Attorney McGaughey was instructed to prepare and ordinance to provide funds for the village share of the improvements. The cost to the village was certified to be not more than \$1500 and this figure will include the cost of manholes and covers, hydrants and other equipment which may properly be paid for by the village with public benefit funds.

Bartlett said that the additional money which will be available under the raised fees would enable the village to carry on without going into the red for several hundreds of dollars each year. He stated that the water and sewer fund had been "borrowed from" every year for a good many years past and that now, with the improvements to the water and sewer plants being an absolute necessity, that the village would have to find some way to repay this money. He mentioned the possibility of licensing other businesses and manufacturing plants to provide funds for this purpose.

Other matters taken up at the meeting included reading and approval of bills and the Treasurer's report and issuance of building permits.

Miss Louise Erkman, of Carmi, Illinois, was the guest of her sister, Mrs. Homer B. Gaston, Monday.

Red Cross Drive Extended Until Monday, Apr. 15

Although only about \$750 has been turned in by the Red Cross Fund Drive worker to date, chairman Herman Holbek expressed confidence that the \$1800 quota set up for the current drive would be met before the postponed ending of the drive, now scheduled to end April 15.

Holbek said that business men of the community have not yet been approached for funds, and that this source will bring the total well up toward the goal. Rural and house-to-house canvassing have brought in most of the money received to date, he said, although several large donations have been received.

News of the Boys in Service

Sgt. Richard O. Burnette and Pfc. Virgil C. Burnette, sons of Mr. and Mrs. Sheridan Burnette, 1054 Main Street, Antioch, Illinois, have received their honorable discharge from the army.

They arrived in New York on the same day, although each served in different theaters. They were discharged at Camp Grant on March 17 within a few hours of each other.

Richard the eldest served two years and nine months in the Air Corps and for the greater part of the time was in the Caribbean Area. He possesses the following decorations and citations:

Four overseas service bars, good conduct medal, World War II Victory Medal and the American Campaign Medal.

Virgil served two years in Coast Artillery and thirteen months with the 538th Field Artillery Battalion and Ambulance driver in the European Theater of Operations. He was awarded the following decorations and citations:

Two overseas bars, one service stripe, American Campaign Medal, European-African-Middle Eastern Campaign Medal W/1 Bronze Battle Star, Good Conduct Medal and the World War II Victory Medal.

Dale Barnstable Named On Third Army "All-Stars"

T/Sgt. Dale Barnstable, former Antioch high school basketball star, was honored by the Third Army Special Services Officer, Lt. Col. Harold Brooks, at a banquet held in honor of all stars on March 4, at the Hall Hotel Munich, Germany.

Other players from the eight-team league who were placed on the "all-star" team with Dale included Dale Hall, all-American, former West Point player; William Towery, All-American, Western Kentucky, in 1941; Peter Clark, All-State champion 1941, Knoxville, Tenn.; and Mack Payton, Indiana State star. Trophy awards were presented to the men.

Barnstable has had many offers from various universities in the United States, and is considering attending the University of Kentucky after he is released from service.

Dale served as combat squad leader in the Mortar section of the 71st Infantry, and took part in an 875 mile long drive which ended in St. Mary, Austria, on the Enns river, before the German collapse. He expects to embark for the states some time during this month.

Sequoia Music Makers' Concert Well Received

Hans Von Holwede's Sequoia Music Makers' annual spring concert presented a top-notch program before a more than capacity audience at the High school auditorium last Friday evening.

The ten numbers on the program were greeted with hearty applause and the entire program was enjoyed. The calibre of music produced by the high school musicians was judged better than that of many professional outfits by local critics. The showing made is even more impressive if the fact that the organization is not a regular part of the school work, and that all practice and rehearsals are held before or after school hours is taken into consideration. Since an organization such as the Music Makers is not accepted by educators as being a proper part of high school curriculum, all funds with which to support the orchestra are raised at the annual concert.

Commander F. A. Swenson and members of the Antioch Legion Post assisted in funeral services in Chicago on Monday for George Avery, Round Lake, a member of the local post and a former member of Norwood Post, Chicago.

Town Budget Upped \$2300 for 1946-47

Library, Poor Fund Account for Raise; Town Fund Lowered

Antioch township's annual town levy and budget for the fiscal year ending March 30, 1947 was approved at the Annual Town meeting held Tuesday, April 2. Although the total amount to be used for town governmental expenses is greater than the amounts previously spent, the general town fund was cut from \$5,000 to \$4800.

The \$2500 increase has been allotted to the Antioch Township library and the Poor fund. The poor fund was raised from last year's total of \$7800 to \$8800 for the coming year. Town clerk Charles F. Richards explained that the increase in the budget for poor fund purposes was made necessary by the inclusion of hospitalization charges and home relief in the form of food, clothing, fuel, etc., for needy families in the community. It is thought that the many strikes in industries in the region are responsible for many persons being unemployed.

The budget for maintaining the public library has been increased from last year's figure of \$4000 to \$5500 for the coming year.

No citizens of the township, with the exception of the officials, were present at the meeting.

School Elections Will Be Held on Saturday, Apr. 13

Two school elections will take place Saturday, April 13. Both the Antioch Grade school and the Antioch Township High school will elect board members. No opposition for any of the board memberships has developed, and the election will be a quiet one.

High school district will elect two members of the board to serve for three years. Arthur E. Bennett, Lake Villa, and Mrs. Lester Osmond are candidates for the places, both are veteran members of the board.

The Antioch Consolidated grade school electors will elect a president and two board members at the election. Mrs. Roy Kufalk, who is now president of the board, is a candidate for re-election and Roy E. Burdick and Mrs. Jos. Patrovsky seek re-election as members of the board.

Poor Prospect for 1947 Duck Hunting

An unfavorable prospect for duck and goose shooting in Illinois next fall has just been disclosed by Livingston E. Osborne, state director of conservation. He made his statement after considering reports from wildlife experts employed by the state and federal governments.

Most of the ducks and geese that fly through Illinois breed in Manitoba, Saskatchewan, and Alberta, Canada. Many of the lakes and sloughs in these prairie provinces are said to be dry, and only plentiful rains can save others from drying up. More surface water is required for a good 1946 crop of wild ducks. Even though there should be a favorable breeding season, further restrictions on shooting may be necessary, Osborne declared.

The outlook for goose shooting is even less promising than that for ducks. Unlike ducks, geese do not breed until over a year old. The goose flock that winters at Horseshoe lake, in southern Illinois has been severely overshot for several years, and the age and sex makeup of the survivors is said to be out of balance for efficient reproduction. This important flock comprises nearly one-third of the Canadian geese of the Mississippi flyway.

Channel Lake Club To Meet Apr. 8th

The Channel Lake Community club will assemble for a regular meeting on Monday evening, April 8 for the transaction of business.

Mrs. Leonard Case is chairman for the meeting which will feature motion pictures to be shown by the Rev. L. H. Messersmith of Millburn Congregational church.

Correction

Last week's story in the News concerning tax rates for 1945 listed the rate for Antioch High school District 117 as being \$1.48. This figure should have been \$1.28. Sorry!

Grade School Spring Festival Set For Apr. 12

Antioch Grade school's annual music festival will be held Friday evening, April 12, in Antioch Township high school auditorium.

Pupils at the grade school have been busy with ticket sales all this week and the total number sold indicates that a packed house will greet the show.

Music and feature numbers will be a part of the program and talented youngsters will have a chance to show what the music department at the school is teaching them. As in the past, each grade will present one act on the program.

Legion Cagers End Season; to Start Baseball

The Antioch Legion Post basketball team concluded the 1945-46 season last week with a loss to a team from Waukegan. About ten games were played during the season, with the locals breaking about even. Ed. Frazier, athletic director of the Legion post, stated today that the season was a great success, and expressed thanks to the townspeople who supported the team on behalf of the players and coaches.

Baseball Team to be Organized
An organization meeting of the prospective players for the baseball team to be organized will be held tonight in the Legion home on Ida Avenue. All ball players who desire to play on the new team are asked to report at the meeting.

Precinct No. 1 Voters Polling Place is Changed

Precinct No. 1 voters will cast their ballots at the Shell warehouse on Lake street this year instead of at the Antioch Methodist church as was announced in the legal notice which appeared in the News columns last week.

Supervisor Wm. A. Rosing who had made arrangements with officials of the church said that laws governing elections prohibited the use of polling places which are not on the ground floor, and that thus the church building would not qualify.

The question of securing proper insurance for the church was also thought to have been a factor in the decision to move the polling place to the Shell building, which is unquestionably a better site for the polling place.

Voters in other precincts of the township will cast their ballots at the regular polling places, which have been in use for many years.

Zion Moose To Sponsor WLS Barn Dance Show

Jane Reed Nusbbaum of WLS radio staff will select the talent and stage the amateur WLS Barn Dance Show to be sponsored by the Zion Moose club on April 18, 19 and 20th.

Tryouts for the show are scheduled for the evenings of April 8, 9 and 10th at the Zion High school gymnasium.

Spring Marks Building Boom for Antioch

Spring has brought on a minor building boom in and around Antioch during the past weeks, with the erection of several business buildings, a few new homes and a good many remodeling jobs being projected. New restrictions governing the use of building materials will no doubt, slow, or even halt some of the projects, but in many cases, where materials are already on hand, it is believed that the construction can be carried out.

Village Board Issues Permits
Business building scheduled for erection during the next few months include an addition to the cement block plant at the Antioch Lumber and Coal Company. C. R. Keulman will build an addition to the building occupied by Mann's grocery store. Mrs. Margaret M. Anderson, of Grayslake, has been given the Village board O. K. to build a store building on the corner of Lake and the newly extended Victoria street; and Louis Bauer will build an addition to the building which houses the Snowwhite Ice Cream store on Main street.

Projected new homes and remodeling include a new home to be built on Bishop street by Al Barnstable and one on Chestnut by John Blackman. Remodeling in the form of a new enclosed porch will be completed by E. O. Hawkins at a home on Spafford; Jos. Cosgrove has almost completed the building of a new cement porch on his home on Lake street; Ed. Knicklebein will move the Lux house to a new location on west Lake street and completely remodel it.

Many other building projects are being held up for lack of materials, but it is expected that the situation will ease during the coming months and that Antioch's housing shortage will be somewhat relieved during 1946.

Servicemen Urged To Register For Voting

Although Secretary of State Edward J. Barrett has announced that returned servicemen will be eligible to vote in the April 9 primary without previous registration if they were discharged within sixty days before April 9th, all returned men are urged to register in compliance with the Illinois Permanent registration laws.

This provision of the Illinois election code will apply to all men and women discharged from the military services on February 8th or thereafter. All that is required of them is that they make an affidavit of their eligibility to vote to election officials at the polls on election day.

Servicemen and women who wish to avoid the trouble of making an affidavit may register with either Supervisor Wm. A. Rosing at the Antioch Garage, or Supervisor Arthur E. Bennett, Cedar Lake, Lake Villa. Other persons who have moved since registering and those who have changed their names through marriage or other means will also be required to re-register.

Mr. and Mrs. Hugo Gussarsen, of Channel Lake, celebrated their twenty-fifth wedding anniversary Sunday evening at their home. Twenty relatives and friends enjoyed playing cards and a buffet supper.

Interest Is Low in Primary Campaign; Expect Light Vote

Republican Ballot to Carry Names of Thirty-six Candidates

The absence of a real "knock down and drag 'em out" battle for county offices and precinct committeeman jobs is believed to be chiefly responsible for the lack of interest shown in the campaign to be culminated Tuesday, April 9. The lack of fireworks and the usual three ring circus which usually precedes a primary election in Lake county were absent during this campaign, due in part to the fact that the only real battles are in the judgeship races, and that dignity and conservatism are usually requisites for election to these important posts. Many of the candidates for these offices are hesitant to throw "dirt" on the opposition for fear that such rowdy tactics will estrange voters who dislike this type of "politics."

State Treasurer

The ballot will carry the names of Stephen A. Day, Richard Yates Rowe and I. Jay Brown, with Rowe an almost certain winner, due to the intensive campaign he has carried on and his connection with the "powers that be." Day is not given even an outside chance for the nomination, partly because of the poor record that he has made in office and partly because of the political scandal surrounding his movements at Washington.

Supt. of Public Instruction
Vernon L. Nickell is unopposed for Superintendent of Public Instruction on the Republican ticket and is thus assured the Republican nomination.

Representative in Congress
William G. Stratton, former state Treasurer, and well known throughout the state is expected to win the nod for Representative in Congress, state at large, and is opposed by Daniel D. Frazin, David L. Keller and Maurice C. Simpson.

Representative in Congress (10th Dist.)

Three candidates for 10th District representative in Congress will be on the post, with Ralph E. Church, incumbent, opposed by Florence Hoban Griesel and Hugh Riddle. Highland Park. Church has based his candidacy on his record of service in Congress for the past ten years, and is asking re-election on his record. Little is known about Florence Hoban Griesel. Riddle, a former navy pilot, was released from the U. S. Navy on December 15, 1945, with the rate of Lieut. Commander. He was born in Chicago in 1909, and has lived in Highland Park for many years. Prior to his entry into the service, he served as assistant Regional Coordinator, National Housing Agency, where he worked with war housing in 11 states. Riddle holds the "Green Card" highest navy flying instrument flying rating and flew wounded men as well as cargo from Shanghai to Paris.

State Central Committeeman
Wm. M. Marks and Oscar Lindstrand seek election to State Central Committeeman. Marks has held the position during past years and his standing among Republicans of the state assures his election.

Rep. in General Assembly

The veteran representatives Nicholas M. Keller and Harold D. Kelsey seek re-election to the Illinois General Assembly. Kelsey points to his consistent record as a "go-getter" in passing legislation of help to farmers, notably steps to help dairymen. His increasing popularity in the Assembly and his power to get needed legislation through make his selection as Representative almost a certainty, according to political observers in the county. Keller, who presents an almost equally good record seeks re-election on his record, especially his continued support of all school legislation.

Opposing the incumbents are Charles E. Twadell, Jr., and Albert E. Nordstrom, Waukegan druggist. Nordstrom has been a consistent "runner" for county and city office and has had, so far as we know, a perfect record of defeats. Indication are that this record will not be changed in Tuesday primaries.

Charles E. Twadell, Libertyville attorney, while bringing fine qualifications for the office and having a popular following in his community, is not believed well enough known throughout the district to have much chance for the nomination. He is a veteran of the last war, and has since returned to law practice in Libertyville.

Senatorial Committeeman
Joseph N. Sikes, incumbent, is unopposed for election as Senatorial committeeman for the Eighth District.

Foretelling Tragedy

The news columns of a leading financial publication recently carried an account of rising building costs that would have staggered a reader ten years ago. It led off with the warning, "Don't expect a contractor to tell you how much your proposed new home will cost—or when he will have it finished. Costs are changing too fast on both materials and labor; supplies are scarce and delays too frequent." Specific examples were then cited: "A druggist in Logansport, Indiana, contracted for a house. It was started last October on a cost-plus basis with a builder's estimate of \$9,000. . . . It is only 75 per cent finished and the revised total cost is already \$15,000. It is expected to go much higher by the time it is finished. . . . Another builder, putting up two cost-plus homes in an effort to determine costs for future use, fears the figures will be outdated before the houses are completed."

These figures have especial significance to present home owners. They emphasize the current drive of the fire insurance industry to inform policyholders of the hazard of under-insurance. Many homes are inadequately insured, and yet their owners are unaware of the fact, having placed full coverage on the property a number of years ago. They forget that property values have soared. The insurance industry is doing everything within its power to awaken its customers to the danger, before it strikes. When an under-insured home is destroyed by fire, possibly wiping out the effort of a lifetime, it is nothing less than stark tragedy for the owner.

Senators Criticize Amended Wage Law

The easiest thing in the world is to propose legislation, the avowed purpose of which is to raise standards of living, because every right-minded person favors such goals. That is why a measure like Senate Bill 1349 to amend the Fair Labor Standards Act to gradually increase the minimum hourly wage to 75 cents, is so difficult to criticize.

However, the members of the Senate Labor Committee who opposed the changes recommended by the majority of the committee, call attention to the fact that the measure as now approved embodies a fundamentally different approach to the minimum wage question than originally conceived by Congress. They say:

"The original purpose of the Fair Labor Standards Act was to place a floor under wages, to eliminate,

insofar as the Federal government has power to do so, sweatshop conditions in industry. Congress was fixing a 'minimum wage' for the individual. . . . The committee majority has departed from that concept of a 'minimum wage' for an individual and is attempting to fix as a minimum what might be termed a standard wage needed to support a family of four. . . .

"It appears to us a very radical departure from previous policy for the Federal government to go beyond the fixing of 'minimum wages' for an individual and get into the field of fixing what is a 'proper wage' for a family of four, and requiring employers to pay that wage. From such a concept, it is only a short step into government fixing of all wage rates, a policy which surely would mean the end of our free, competitive economy."

Furthermore, the proposed new minimum wage law contains discriminatory provisions. It breaks an industry such as retail distribution into two classifications. Stores of one size are exempt from the law while stores of another size are brought under its jurisdiction. In this highly competitive industry such granting of advantage to one group at the expense of another must eventually react against the consuming public.

The humanitarian appeal of the proposed amendments to the minimum wage law should not stampede Congress into hasty action.

Compulsion Isn't The Way

More than a year ago the governor of New York state directed the New York Commission on Medical Care to devise a plan to make medical care more available to all classes of people in the state of New York. It became apparent to the commission that "the insurance or prepayment principle was the one which could best be employed to attain this objective"—in other words, compulsory health insurance. But after fifteen months of study, the commission rejected the idea. Three important reasons for the commission's rejections were: (1) The estimated cost of such a program—between \$400,000,000 and \$600,000,000—was considered excessive, requiring a minimum per capita tax of \$45. (2) The people of New York could be expected to regard as an unnecessary bureaucracy the machinery required to run the program. (3) The majority of the commission believed that a public health program might lead to a deterioration in medical service."

Broad, compulsory measures are not the answer to the nation's health needs. Some way must be found to reach the goal of all-inclusive, high-grade medical care without saddling the people with a hopeless maze of bureau-infested red tape and exorbitant social security taxes. The medical profession is working steadily toward that goal by the development of a nationwide voluntary health system.

The Lake Villa Community Men's club sponsored a very successful party at the school gym last Saturday night with a large crowd. Mrs. Albert Kapple won first cash prize of \$50, Charles Kelly, second prize \$25, George Schramm, third prize of \$10,

and Carl Reinebach, fourth prize of \$5. Merchandise certificates of \$5 were won by Kenneth Blumenschein, Kenneth Blumenschein, Minard Hulse, Dr. Midgeley, James Williamson, Martha Daube and Mr. Denk. Nylon stockings were won by Minard Hulse, Patricia Nelson, Mrs. A. Kapple, Mr. Ed-ward Martin, of Millburn; Thos. Kennedy and Mrs. Florence Caldwell. Mrs. William Marks, Thos. Kennedy, Mrs. Paul Sheldon, Chas. Ham-ings were won by Minard Hulse, Patricia Nelson, Mrs. A. Kapple, Mr. Ed-ward Martin, of Millburn; Thos. Kennedy and Mrs. Florence Caldwell.

BERNARD J. JURON

REPUBLICAN CANDIDATE FOR

PROBATE JUDGE

Our history and background have appeared here for some time . . . To intelligent Republicans, it is not enough to have a candidate for office say, "Vote for me" . . . there must also be some sound reasons and recommendations to back that up . . .

Let us assume that all candidates for Probate Judge are more or less qualified for the office, which one shall we vote for and why? . . . As Republicans, we must ask, does the party owe this candidate its full support? . . . What has this candidate done for the party? It is a well established adage, "you can only take out what you put in." We can also ask who is the Republican Party? An answer to this question appeared in a recent issue of the Saturday Evening Post

and the National Republican Magazine, where they said, "The People and the Precinct Committees are the Republican Party, not the National Chairman or the National Committeemen" . . . This is a solid fact.

There is only one candidate in this group who has worked for the Republican Party from the "grass roots." He has served as a Republican Committeeman for 12 years, as a missionary carrying the torch of the party in the dark "daze" of new deal . . . pushing door bells . . . making converts . . . helping maintain the party in this county.

This candidate is eminently qualified as his record as lawyer for many years in Lake county shows. He has the judicial temperament which is so vitally important in assuring the continued efficient administration of this office.

Urge Veterans To "Hang On To Your Insurance"

"Hang on to your government insurance" is the advice of every insurance expert to the veterans who are returning home. It is a bargain, since all the expense of handling is met by the federal government.

Since the veteran has eight years in which to convert. Service officer Arthur F. Reutlinger at American Legion Home, 501 W. Washington, St., Waukegan, Ill., suggests the veteran continue paying the war-time term rate until his income is stabilized. He has remittance forms for making premium payments.

Congress is now considering amendments that will permit payment of the insurance in a lump sum, with other proposed improvements which will make the veterans' insurance even more valuable and desirable.

County Judge

Four names will appear on the Republican ballot for County Judge to succeed Perry L. Persons, who declined to run for another term of office.

John R. Bills, City Judge at Zion, Illinois and a member of the law firm of Mason and Bills, has made a fine campaign, basing his candidacy mainly on the fact that he is the only candidate for the county judgeship who has had actual experience in conducting a court of record. Bills has been a substitute judge both in this county and Cook county on numerous occasions. His personal popularity as well as the intensive campaign carried out during the past few weeks will assure him a large vote.

Minard Hulse, a member of the well-known law firm of Hall and Hulse, is also a candidate for this office. Hulse, who resides in Waukegan, is very well known to most voters of the county through the extensive practice enjoyed by the firm and he has been active in American Legion affairs for many years. He has served as assistant states attorney and as president of the Lake County Bar Association. Hulse is not a newcomer as a vote-getter, having been elected to the presidency of the Waukegan High school board for several terms and to other offices. He is certain to poll a large percentage of the votes Tuesday.

Herman C. Litchfield, Waukegan, is seeking the Republican nomination for the office for the second time, having made a very creditable showing against Persons and Paul Doolen four years ago. Litchfield has been active in civic affairs in Waukegan for many years and was chiefly responsible for the retention of the Great Lakes Naval Training station some years ago when Naval officials wished to move it from the present site. He points to twenty-five years of legal and judicial experience as a recommendation of his candidacy. It is believed that he will make a good showing when the votes are counted.

Clarence L. Brown, judge of the Magistrate court in Waukegan, is a veteran campaigner, having been elected by Waukegan voters to Magistrate for the past fifteen years. Brown claims "wide understanding of numerous Juvenile and Domestic relation cases" as an endorsement of his candidacy and has been a practicing attorney in all courts and is a member of the Illinois State and County Bar Associations.

County Clerk

Jay B. Morse is unopposed on the ticket for County Clerk. Morse has conducted the office in a creditable and efficient manner during his term and the fact that no opposition developed speaks well for his candidacy in the fall election.

Probate Judge

Charles E. Jack, Willis Overholser, Clarence W. Diver, Ray E. Thomas, and Bernard J. Juron will settle a five-way argument over the probate judgeship nomination Tuesday at the primaries.

All these men are well known attorneys, all practice in the county, and are well qualified for the office. Overholser and Juron are conceded a slight edge over their opponents because of the more intensive campaigns being waged by each of them. Overholser polled a very large vote several years ago when he ran for Representative against Kelsey and Keller, and is not a complete newcomer to voters of the county. Juron, who resides at Round Lake, will undoubtedly receive much support from residents of the western half of the county.

Thomas, Diver and Jack are well qualified for the office, and it is the opinion of most that regardless of which of the five men is nominated, Lake county will have an A-1 probate judge.

Allen J. Nelson, incumbent, is unopposed for nomination as probate clerk, as is Guy O. Lunn, former chief clerk in the treasurer's office, for county treasurer.

Sheriff

Thomas E. Kennedy, chief deputy sheriff and a former sheriff, Justus H. Depke, Gurnee garageman, and Clayton "Barney" Hamlin seek the Republican nomination for sheriff.

Kennedy has spent the past twenty-five years in police work in the county and is eminently qualified for the office. He is a graduate of the FBI school and has been a lecturer for the FBI throughout the middle-west and has set up standards for many other police forces throughout the region. Kennedy's long service and popularity throughout the county indicate that he will receive many votes.

Hamlin, of Lake Villa, has had long years of experience in police work and recently resigned a captaincy in the state police force to make the campaign.

Depke, a newcomer in county politics, has waged an intensive campaign for the office, but no estimate of his chances can be arrived at.

Superintendent of Schools

William C. Petty, county superintendent of schools, is opposed by Marguerite M. Zimmer of Aptakisic.

Petty has held the office for the past sixteen years and his administration has been marked by a decided increase in efficiency in the county school system. He is well qualified for the office both in experience and training, and his nomination is a virtual certainty, due to his fine record of service.

Miss Zimmer, a former employee of the county superintendent's office, has had much experience in affairs of

the office and lists as qualifications training at Eastern Illinois State Teachers' college, Northwestern University, and the University of Chicago. She has had teaching experience as well as experience in school administration. She has waged an intensive campaign and while Petty will undoubtedly poll the winning vote on Tuesday, Miss Zimmer is to be congratulated for the clean campaign she has conducted.

Precinct Committeemen

Precinct number 1 voters will have a choice for committeeman, as two candidates are seeking the job. Louis Pregenzer, incumbent, is opposed by Jack Wolff. Pregenzer has held the post for several years. Wolff has spent much time in campaigning and will be remembered as a candidate for road commissioner some years ago. Voters in Precinct 2 will elect Laurel D. Powles committeeman.

Democratic Slate

The Democratic ballot will not feature any real contests, and only three offices have more than one contender.

The ballot will contain the names of Sam Keys for state treasurer; C. H. Engle for superintendent of public instruction; Emily Taft Douglas for representative in congress; Harold H. Kolbe for representative in congress (Tenth Dist.); Robert E. Quirk for state central committeeman; Thomas A. Bolger and Theodore Reusch for state representative; Joseph Mull for senatorial committeeman (8th dist.); Lester F. Collins for county judge; Russ Alford for county clerk; Charles Noll and Stewart Reed Brown for probate judge; Joseph S. Kerpan for clerk of the probate court; Anthony J. Griggins for county treasurer; Charles R. Rouse and Glenn Dibble for sheriff; no candidate for county superintendent of schools; and Mrs. Vene Cermak for precinct committeeman. Other precincts will not be represented by committeemen.

Soviet Marriage

Russian marriage laws are quaint, judging from our standards. When a couple marries in the Soviet, they assume either the husband's name, the wife's name or if they want, they can retain their own names. Their children are also given a similar choice. As for alimony, the father is not the sole payer, as in this country. Either the mother or the father has to pay alimony, depending on who has the custody of the children. The alimony is a fixed sum of money which varies only with the number of progeny.

Musical Term

"Glee" is a musical term, signifying a piece of concerted vocal music, generally unaccompanied, and for male voices chiefly.

How to SPEND LESS for a BEAUTIFUL LAWN

Compare what you spend: in money, on labor, maintenance . . . on a poor, weedy lawn, as contrasted to a beautiful, weed-free lawn-carpet. There are three temptations to cut corners . . . preparing the soil, buying seed, maintaining fertility. But Nature soon catches up with you.

FOOD: A thin, infertile soil will not long support a decent lawn; nor will grass plants stay healthy when starved for proper fertilizer.

SEED: It's just the same when buying seed. You can't expect cheap grass seed to contain varieties growing permanently . . . nor to give you varieties selected and proportioned for growing conditions in your own locality.

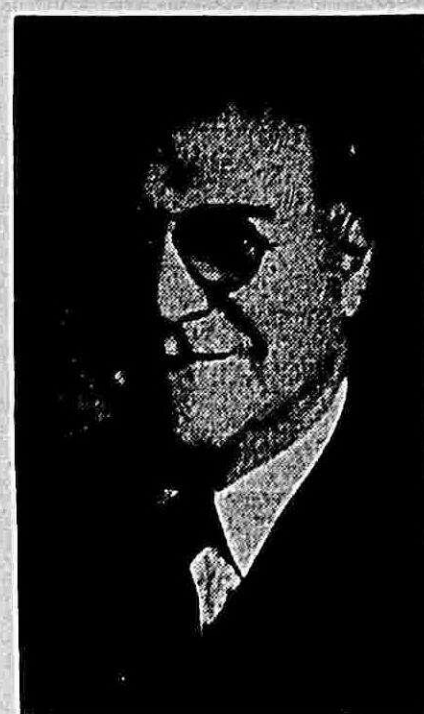

MAINTENANCE: The money you spend on periodically re-building a lawn . . . to say nothing of the back-breaking labor and the weed-pulling . . . soon adds up to more than doing the job right at the start. You can't expect low-cost, annual grass varieties to hold back the weeds for long. Annuals should be used only to "nurse" the perennials. A good lawn seed mixture runs strong to perennial grasses . . . which permanently crowd out weeds.

WHERE: In our store we have extensive information about growing a beautiful, weed-free lawn-carpet.

Come in and let us help you!

☒ **Ralph E. Church**

Republican Candidate

10th District

On his established 26-year record of constructive public service in State Legislature and U. S. Congress.

AND BECAUSE

In Congress he is a proved aggressive leader in your fight for a sound free and productive America—in a world at peace.

Now on Executive Expenditures, Merchant Marine, and Air Claims Committees, vigorously fighting for balanced budget, surplus property disposal, world trade, fullest production and employment as bulwarks against inflation.

Served 6 years as member Naval Affairs Committee; Has also served on Insular Affairs, Patents, Elections, and Revision of Laws Committees and GOP Whip Organization of the House.

He is experienced in international affairs. Congressional Delegate from U. S. to Inter-Parliamentary Conference, Oslo, Norway, August 1939.

He pioneered in preparedness. Pioneered in urging air supremacy and airplane production inland: Re-opened Great Lake Naval Training Station in 1935; Had Navy acquire Glenview Air Field; Now urging 2nd Annapolis at Great Lakes.

He knows needs of veterans: Served as Lt. Comdr. USNR, 1938-41; 2 sons in Navy.

His integrity—and Republicanism—have never been challenged. For 4 terms the only Republican Congressman From Cook and Lake Counties. He has vigorously fought pernicious New Deal measures since 1934.

Communist PAC leaders seek to eliminate every Republican Congressman who has opposed their destructive program. The Independent Voters, Inc. (IVI) is fronting for these radicals. His primary opponent, on the New Deal 1941-42 payroll of wasteful and incompetent OEM and NHA with Democratic sponsorship, and has voted Republican at Primaries for over 5 years.

Congressman Church never missed a session, roll call or vote entire 10-year service in Congress.

"The 10th District is fortunate in having a man of his caliber in Washington—experienced, diligent and courageous. He is a legislator of the highest type in whom the people can have confidence.

1,000 JOBS AT GOOD PAY

One thousand jobs at good pay, working conditions and hours of employment are now open to applicants who call in person at the Employment Office of the Johns-Manville Waukegan Plant.

We have places open now for all of our returning war veterans, for other veterans who have never been employed before by Johns-Manville, and for others seeking a real job opportunity in an expanding business.

Manufacturing offers a great post-war opportunity for veterans and others who wish to establish new business connections and those who want to start building a business career geared to the expanding needs of the nation. We offer an opportunity to learn the manufacturing of building materials and industrial products from the ground up.

At good pay.

This is work in which any American can be

proud to take part. Never before in the history of this country has the demand for housing been greater. It will take years at full production to satisfy this demand.

Our returning veterans must have homes where they can lay aside their uniforms, join their families and take their places as citizens of the community.

Johns-Manville intends to do its part to help supply this national need. Not only because it is good business but because we consider it a civic responsibility as well.

For that reason we are increasing our employment to 1,000 more persons than we ever had working at the Waukegan J-M plant before. So again we say:

There are 1,000 jobs at good pay, working conditions and hours of employment now open to all applicants who call in person at our Employment Office.

Dried Herbs
Dried herbs must be steeped in cold liquid for several hours or overnight to bring out the volatile oils which give them their flavor. Or, if for a last minute affair, they can be heated slightly in the liquid. Using a measurement of one-half teaspoon salad herbs to every cup of vinegar, let stand in the refrigerator overnight. Strain off the herb particles in the morning and the vinegar is ready whenever you want it for your regular salad dressing recipe.

Plucking Ducks
Plucking of ducks can be made much easier if the ducks are first dipped in a mixture of hot water and melted paraffin.

ELECTRIC BROODERS

get Chicks off to a Flying

Start!

**What to do before
your chicks arrive**

Move brooder house to a well-drained spot—preferably one where no chicks have been raised for two years.

Make certain the brooder house has plenty of direct sunlight, fresh air, is free from drafts.

Thoroughly clean, scrape, and scrub the brooder house walls and floor with a hot lye water solution.

Clean and disinfect brooder, fountains, and other equipment to prevent spread of disease.

Start the electric brooder a few days before the chicks arrive to get heat regulated and to dry out brooder house and litter.

Be sure to use brooders according to their rated chick capacity... a temperature of 95 degrees to 100 degrees is desirable at the start, governed somewhat by the actions of the chicks. Normally, the temperature should be lowered 5 degrees each week until the 85 degree mark is reached.

Cold snaps hold no terrors for baby chicks arriving at poultryman Howard Mann's place near Kankakee. They step right from the shipping box into the protective warmth of electric brooders where they spend their first critical weeks in complete comfort and safety.

By using thermostatically controlled electric brooders, Howard has cut chick losses to a minimum... has produced more healthy birds with less work and worry.

Plan now to step-up your poultry profits by raising more of the chicks you buy. Visit your farm equipment dealer the next time you are in town and select one of the chick-saving electric brooders available. He is unable to supply you with one at this time, drop us a card and we will immediately mail you approved plans for a homemade brooder which you can build from materials on hand.

Electricity for Brooding and other farm chores is available to more than 89% of all the farms in the area served by this Company.

Greatest Story To Be Told Again

Present Zion Passion Play For Eleventh Season.

ZION, ILL.—The greatest story in history is recounted on Sunday afternoons, by more than 300 men, women and children in the Zion Auditorium, Zion, Ill., midway between Chicago and Milwaukee. The Zion Passion Play, which has its opening presentation Sunday afternoon, April 7, at 3:00 p.m. and continuing every Sunday until June 30, is one of the notable community artistic endeavors of the middle west, and deserves to be brought prominently to the attention of all in this area who may not yet have become aware of its value. Zion is easily reached by auto, bus or by the North Shore Electric railroad.

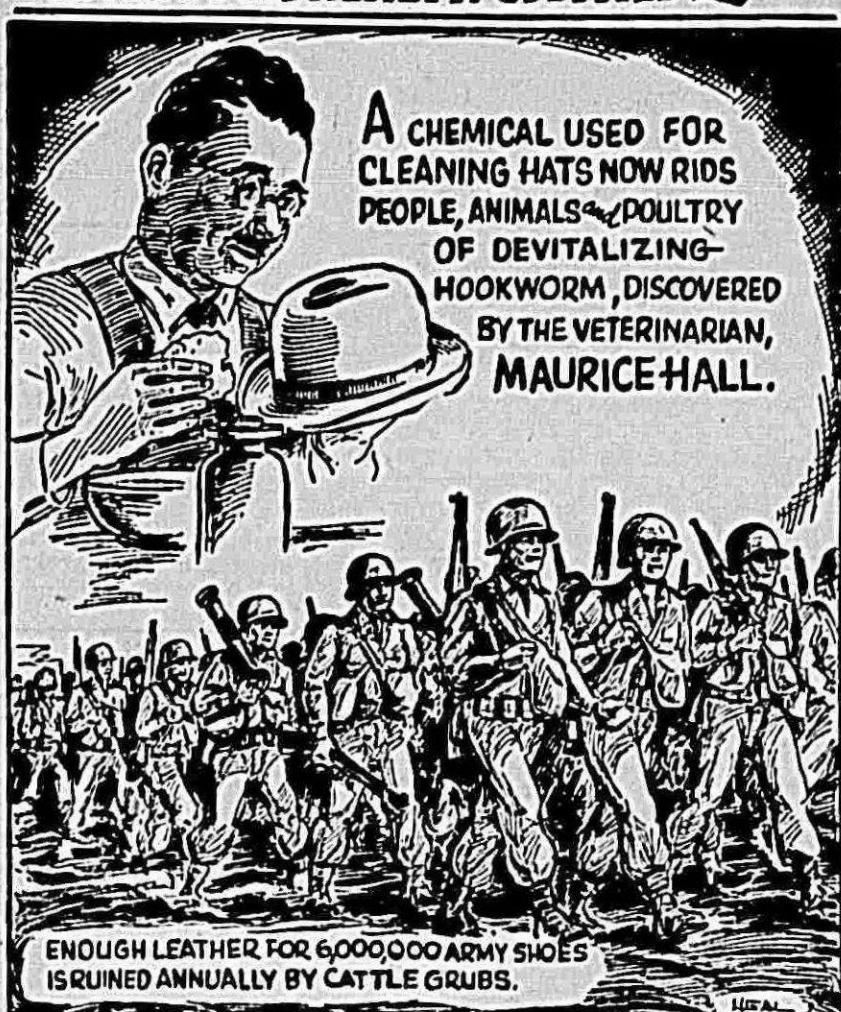

Zion Passion Play is the dramatization of the old, old story of Jesus of Nazareth. From the initial episode, a scene in which the Christ delivers the Sermon on the Mount to the throng against a beautifully executed background of the sun-washed Palestine hills, to the final breathtaking representation of the Ascension, the three-hour production maintains artistic level of remarkable dignity and power, keeping close to every Scripture incident.

The performance of LeRoy Peacy as Christ deserves a nationwide recognition, for in the more than 150 presentations he has identified himself with his supreme assignment so deeply and so humbly that not a false note creeps in.

Given under the auspices of the Christian Catholic Church, the Zion Passion Play is primarily a tribute to the rare gifts of Jacob Taylor, author, artist and director, a native of England, who has been a citizen of Zion for 25 of his 38 years and is a minister in the Christian Catholic Church. He enjoys the collaboration of Sophia Swanstrom Young as drama director, and Walter Flannery, music director.

The whole production absorbs the devoted efforts of the hundreds of members of the community—functioning both on stage and backstage—to whom the Passion Play has become the most real and valuable experience in life. The value of the experience to the participants, who make it a labor of love, would in itself be sufficient justification for the project, but to those not connected with it the singular artistic, spiritual merits of the Passion Play provide its most urgent recommendation.

Faulty Construction

Faulty construction of farm and home buildings causes about 50 per cent of rural fire losses, according to the National Fire Protection association.

North Is South

Magnetically speaking, mariners throughout the centuries who have set a northward course by heading where the compass needle points have really been traveling "south," according to Ships magazine. The compass needle is a magnet; so is the earth. In magnetic forces, opposite poles attract. Thus the earth's pole which attracts the north-seeking end of the needle is actually a south pole. We started calling it the north magnetic pole simply because it happened to be near the globe's geographic north.

War Alcohol

Direct military and lend-lease requirements of alcohol from 1942 to 1944 totaled 253 million dollars. Smokeless powder and chemical warfare materials were high on the list as important consumers. The small portion remaining of war alcohol after these many purposes were served went for use as antifreeze, since many previously available chemicals for this purpose were being diverted into direct war uses.

Chinese Enterprise

The scientific ingenuity, patience and skill of the Chinese were revealed anew on a recent government mission to the Orient. In a visit to a Chinese city famous the last 2,000 years for brine wells, Chinese were seen drilling deep wells for brine and natural gas. The interesting aspect is that they have penetrated to depths of 3,500 to 4,000 feet without any metal equipment except the cutting edge of a drill. They are using and have used, for hundreds of years, drilling methods developed independently in America.

CHAS. E. TWADDELL

REPUBLICAN

Candidate For

STATE REPRESENTATIVE

Twadell, now a practicing attorney in Libertyville, served 4 1/2 years in the Navy as PT boat skipper and intelligence agent. We supported our boys in war. Let us now support them in their aims in peace. This is one of the finest Districts in the state and deserves the highest quality of representation. It has been ten years since this district has elected a lawyer to the state legislature. Vote for Twadell and you will not have to apologize for your choice.

Vote for Twadell ALONE and he will receive a count of three votes.

VETERANS MAY REGISTER AND VOTE APRIL 9

TWADDELL PUBLICITY COMMITTEE

CHARLES NOLL

DEMOCRATIC CANDIDATE

for

Probate Judge

Friend of Labor

Dear Voters:

The ballot is more important in the preservation of American Democracy than the atomic bomb.

I have known Charles Noll our candidate for Probate Judge all of my life. Twenty-five years ago he was my teacher in Washington High School. Later I worked for him when he subdivided three subdivisions in West Cogan.

From 1933 to 1940 he was Assistant Attorney General under Judge Otto Bremer, in which capacity he handled the adjudication of Fox in many states.

During the last three and a half years he was Assistant United States Attorney for the Northern District of Illinois, representing the Government in several hundred civil cases, involving Probate and other matters.

Charles lives with his family at 1315 Jackson Street and has four children. The oldest daughter, a University graduate, is teaching in the first City High School. His oldest son who served as a Lieutenant in the Air Corps is now ated with him in business in Kenosha. Charles served in the First World War.

Kindly vote for Charles Noll for Probate Judge.

Very truly yours,
Abraham J. Viles

'Shore Right' It was the "Tawan Karang" or "shore right" which finally led to fighting between the Netherlands from Java and the princes of Bali. Bali's people had long believed that they had the right to plunder any foreign ship which went ashore on Bali or was in distress in its waters. As late as 1904 this "right" was practiced and the Netherlands government defied.

Island Anchor Puerto Rico is eastern anchor of the Greater Antilles chain of West Indies islands. One of the pleasantest and most fertile of the Caribbean islands, it is roughly rectangular, 100 miles long from east to west and 35 miles wide. Its position, 1,000 miles northeast of the Panama canal, 1,000 miles southeast of Miami, and 500 miles east of Cuba, was strategic for wartime air and naval defense operations.

Fowl Fare Muskrat meal, fed to baby chicks in Louisiana, gave results superior to ordinary meat scraps, shrimp and fish meals. On a chemical basis, 8 pounds of muskrat meal has the same amount of crude protein as 10 pounds of meat meal and it gave greater gains per chick up to 8 weeks old. Broilers fed rations containing dried muskrat were served to 26 families who found no objectionable flavors in the meat.

30,000 Acres on a Ship The equivalent of nearly 30,000 acres of grain were carried aboard the "Col. J. M. Schoonmaker" when she set a Great Lakes cargo record this season, reports Ships magazine. She carried 525,000 bushels in a single trip. Based on a yield of 18 bushels to the acre, that represents the total harvest of 29,250 acres—more than 45 square miles—of land.

Durable Blanket For a durable blanket that will hold its shape when laundered, look for a close, even weave. Hold a single thickness up to the light—you should see tiny, even holes the size of a pinpoint. Gently pull a small bit of the nap between your fingers. If the nap pulls out easily you may know the surface is overnapped and the fiber weak. For the most warmth, the nap should be thick and firm. Winterweight blankets vary from three to five pounds; but weight doesn't necessarily indicate warmth or quality, since poor, shoddy wool sometimes weighs more than good wool.
